Figure 1 displays various map symbols and their corresponding labels, organized into two columns. The left column shows symbols for 'Highway', 'Secondary Road', 'Jung Trail/Walkway/Ferry', 'Railroad', 'Mosaic', 'Inset', and 'Out Area'. The right column shows symbols for 'Pipe/Power Line', 'Ridge/Physical Feature', 'Property/Fence Line', 'Nonvisible Boundary', 'Stream/Shoreline', 'Intermittent Stream', 'River / Lake', and 'Glacier'.

¹ A ' ' following a place name indicates that the place is coextensive with a MCD; A ' ' indicates that the place is also a false MCD; the false MCD name is not shown.

² This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or reservation trust lands. It is a type of political subdivision based on an American Indian hierarchy rather than by state and county. Where reservation or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if so, constitutes a single tribal census tract entity.

³ A '*' following a block number indicates that the block number is repeated elsewhere in the block.
